

## Global Trade Exchange Program

Join our global network of trade data partners and receive powerful insight into the world of payments.

Being part of the world's largest commercial trade data network can improve your credit decisions to avoid risks of delayed payments. At no cost, your business can support the credit community by sharing customer payment experiences confidentially.

**Make a difference in the credit community while improving your business decision-making process with the world's largest commercial data network.**

### Key benefits

#### Access to Global Benchmarking Data

New Platform Exclusively Available to Global Trade Exchange Participants

D&B Payment Performance Insights provides insight into how your customers pay you versus how they pay their other vendors and industry peers. This interactive platform showcases data in easy-to-read charts and graphs to visually display payment performance and benchmarking metrics. With this data, you will be able to better manage account receivables and account-level payment performance by identifying potential collection risks and opportunities.

#### Get Paid Faster With Invoice Labels

Invoice Stickers Featuring Dun & Bradstreet's Brand

Global Trade Exchange participants receive access to a proprietary electronic image (or labels) that can be placed on your invoices to "alert" your customers that their timely payments are appreciated and shared with Dun & Bradstreet.

## Join in 3 easy steps

Companies of all sizes can become approved partners in as few as 5 to 7 business days by completing the following:

### STEP 1

**Export your data:** Simply download or export your Accounts Receivable Portfolio to the electronic format of your choice. We accept most file formats and provide secure technologies for file transfers.

### STEP 2

**We will review it:** You will be assigned a Project Manager to ensure that the information you export is accurately reflected in D&B data and scores.

### STEP 3

**See your sample report:** We will return an audit of your processed accounts for your review to ensure the accuracy of your data. We will not release your information into our payment database until we have your authorization.

Enabled by the Dun & Bradstreet Worldwide Network, companies of all sizes and profiles are continuously on the lookout for new business partners.

CIAL D&B is a strategic partner for analyzing financial risks posed by our commercial partners, due to its openness and constant follow-up of our requirements
